Finishes & Options

Framed: Portraits are complete, framed, retouched and mounted and laminated or on artist's canvas. We have about 15 styles of frames to choose from.

Canvas Wrap: Portraits are retouched, laminated and canvas mounted so that it wraps around the thick edges of the portrait.

Ready to Frame: Great if you all ready have a frame or would prefer to frame it yourself. Portraits are retouched and mounted, your choice of lamination or on artist's canvas.

Laminated Finish: Excellent protective finish for your portrait, no need for glass.

Canvas: Portrait is pressure mounted to an artist's canvas, to give it the look, texture and feel of an oil painting.

Free Retouching on Every Portrait: No need to worry about blemishes, lines around the eyes or on the neck, wrinkles, scars, or bags under the eyes. Problems like this are reduced or removed. We can even whitened teeth slightly all at no extra charge.

This is Just Plain Weird: Every studio in the world charges you to upgrade to a canvas finish. But we don't! This could save you \$100 or more on each wall portrait.

Head Swap (when possible) \$19
Occasionally on group photos everyone looks perfect except for one person who may be blinking or not smiling. We can use Photoshop to copy their face from a similar pose and paste it into the group photo.
